

Courseware Library

The Oakwood [Courseware Library](#) is an extensive and continuously updated source of Oracle Applications training in different formats and styles. Versions include 10.7, 11.03 and 11i. By using the Fast Track Training methodology which embraces the idea of re-useable content we can provide customers with an accurate breakdown of costs for developing training courses.

By using the courseware library you will save up to 75% in development time.
