

About Fast Track Training

The success of Oakwood's training is based on combining the skills of training professionals with the experience of Oracle specialists who know your industry. This, together with a wide range of Tutor based materials that can be quickly tailored to your specific needs, ensures faster and more effective results at a very competitive price.

Fast Track Training for Oracle Tutor 11i

Oracle Education offers a fast and cost effective approach to developing customized job-role and end-user training that is tailored to your business. Fast Track Training for Tutor 11i shortens the delivery time to document key business processes and procedures which we can then link our industry specific [Tutor Based training](#) materials for Oracle Applications. The result is a Tutor 11i solution in half the time and at half the normal cost.

Tutor 11i Training Bundles

Most people struggle to understand what Tutor is so, first we will help you understand the product and then we help you decide how to best go about implementing it within your organization. Depending on each customer's needs and approach we can mix any combination of workshops (*see below*) or part workshops to fit your time and budget. The aim of the Tutor Training Bundle is to bring your team to self sufficiency as quickly as you can feel comfortable with. We offer varying degrees of intervention and coaching starting from 5 days then increasing to 10, 15 and 20 day Tutor Bundles. Please call Oakwood Education for a break down and prices.

In addition to the Oracle Tutor 11i training and workshops we provide Oakwood Education can install Oracle Tutor, upgrade Oracle Tutor and implement Oracle Tutor 11i for you. We can also provide additional training, consulting and project management support where customers do not have the staff to conduct these tasks.
